The screenshot shows a medication administration record (MAR) for a patient named 'ACTO06' (Actovegin). The record details the drug name, dose, administration date (2017-02-10), and the time period for the medication (24 hours). It includes a grid for 24-hour intervals from 8A to 7A, with specific times marked for administration. The interface also includes sections for related and adverse drug reactions.
